Important Update: Bulk billing may ONLY be available at the doctors discretion, as privately billed. Out of pocket expenses may be applicable to your patients. It is not mandatory that all the doctors at your clinic bulk bill. Please ensure you have the correct information for your patients as private patients will be asked to pay consultation.

We have been part of the Darlinghurst community since 1994 when our original clinic opened at 407 Bourke St (formerly known as 407 Doctors). In 2010 we moved to our new location at 102 Burton St, Darlinghurst. We have a great team of 6 doctors, 2 practice nurses, a physiotherapist and a non-medical medical research team. All of our doctors are staff and see the patients regularly, using locums only for an absence. We are also committed to providing education for medical students and junior doctors. We have been teaching for the University of Sydney since 1994 at both Darlinghurst and Kogarah and Kaldi Sydney. We are GP Registrars Accredited and the National Art School. Our current students have been on our patients for the past. We have had one enjoy the relaxed, community-based and friendly atmosphere at ESD.
